

We've kept
the flames
burning
for student
success in
high school.

Together,
we can light
another one
for greater
success in
their lives.

He was truly the guiding Spirit of Phoenix High School.

As its founding principal from 1988-1994, Robert Campbell felt that the students should not have to conform to the school, but rather, the school should be built around the needs of the students.

Today, it continues to help those who want to graduate early, those that need to catch up, even those who never thought they would finish. They are all given a second chance at Phoenix.

In The Spirit of Phoenix Scholarship, Robert Campbell's legacy inspires us all to offer our support to make a difference in even more lives *beyond* high school. Thank you for joining with us, to honor him.

"PHOENIX CAN HELP STUDENTS get back on track and they can provide a great deal of assistance to students who wish to continue their education but cannot attend during normal hours due to personal circumstances. My favorite thing was that I was able to earn college credit while in high school. My previous high school would not have provided me with the same opportunity as Phoenix. Despite the fact that most people did not realize my potential to pursue higher education, Phoenix High School saw that potential in me."

"THE TEACHERS, ADMINISTRATORS and students of Phoenix High School helped me appreciate the value of a purposeful education. There were times when I didn't think I'd make it to graduation. With the right guidance and a positive mindset modeled for me, I proudly graduated with new inspiration and a tremendous amount of respect for the education field. Naturally, I went on to become a teacher right here in Gwinnett County.

I am very fortunate to have landed at Phoenix; my amazing teacher role models instilled in me the importance of making connections with all students. I am a better educator because of Phoenix High School."
